MEMORANDUM FOR: Director of Central Intelligence

Deputy Director of Central Intelligence

VIA

Director, National Foreign Assessment Center

FROM

: Maurice C. Ernst

Director of Economic Research

SUBJECT

OER's Free World Industrial Research

- 1. Action Requested: Permit Bob Gates and I to organize a session with an outside panel to discuss the future direction of OER's analysis of Free World industrial issues.
- 2. <u>Background</u>: When we talked on 11 May concerning OER's work on Free World industry and trade, you suggested that we organize a session with some industrial and financial leaders to discuss OER's work in this area.
- 3. As I mentioned to you during that session I have planned to do more thorough work on Free World industrial trends; the financial support is included in the FY 1983 budget. John McMahon and I have agreed that FY 1983 is too leisurely. We plan to put this research apparatus in place immediately.
- 4. The session with outside advisors would be an excellent way to make sure that our thinking about the research effort has the full advice of leaders in the field. I suggest that we assemble this group and let them react to our proposals about what we plan to do in the next 18 months or so. They can give us the benefit of their views about our proposals and about areas we may be missing. In addition, they could give us their ideas about how OER can position itself to fully exploit relevant seams of knowledge within the private sector.
